**Upper Montclair, NJ**

Meticulous space planning was the key to converting a small, existing kitchen into a modern, flexible space that respects the origins of this circa 1870 Dutch Colonial shore home. Tere Bresin, ASID, set double glazed walls in a pumpkin and umber striae pattern against dark walnut stained floors and granite countertops that reflect the colors of the custom backspash. In summer, the French doors and cozy dining area overlook a fragrant outdoor herb garden.
